Information is upon a Criminal Investigation which led to the "True Bill No. CR17-00115" which was subsequently processed by your court. As potentially, proffered by the FBI, DEA and/or Homeland Security pertaining the prosecution of cause; was a there a grand jury sitting at the time of case? If there was a grand jury sitting; how many members made up the body of the device?

Because of recent discovery(s), there is a very strong desire to learn more about how this franchise enterprise was constructed. So. Please, understand my concerns. Going forward:
